I. Introduction

1. The General Assembly, in paragraph 1 of its resolution 62/13, *inter alia*, called upon all Member States to report annually, by 30 April, to the Secretary-General their military expenditures for the latest fiscal year for which data were available, using, preferably and to the extent possible, the reporting instrument as recommended in its resolution 35/142 B or, as appropriate, any other format developed in conjunction with similar reporting on military expenditures to other international or regional organizations, and encouraged Member States to submit nil returns, if appropriate.

2. By paragraphs 5 (b), (g) and (h), respectively, of its resolution 62/13, the General Assembly requested the Secretary-General, within available resources, to circulate annually the reports on military expenditures as received from Member States; to promote international and regional/subregional symposiums and training seminars to explain the purpose of the United Nations standardized reporting system of military expenditures and to give relevant technical instructions; and to report on experiences gained during such symposiums and training seminars.

3. On 20 February 2009, a note verbale was sent to Member States requesting them to submit their reports no later than 30 April 2009. The replies received are reproduced in section III below. Additional replies received from Member States will be issued as addenda to the present report.

II. Action taken

4. The Office for Disarmament Affairs organized a regional workshop on the theme "Transparency in Armaments for West African States", held in Dakar, on 9 and 10 June 2009. The workshop programme included one session devoted to the United Nations Standardized Instrument for Reporting Military Expenditures and aimed at enhancing familiarity with and encouraging greater participation of participating States in the Instrument.

III. Replies received from Governments

A. Explanatory note

5. To date, the Secretary-General has received reports from 46 Governments. In most cases, Governments have reported the figures in the tables presented below on the basis of the United Nations standardized instrument for reporting military expenditures. A number of States provided additional information on military budget for 2009 and on defence planning to explain military expenditures. The additional information is available at the Office for Disarmament Affairs. The information on military expenditures received has been computerized to conform to standard statistical practices.

6. The originals of the replies from States are available through the Office for Disarmament Affairs. The annual reports and other relevant information on the Standardized Instrument for Reporting Military Expenditures are available electronically on the Office website at <http://disarmament.un.org/cab/milex.html>.
